

To Whom It May Concern:

You are invited to participate in our study titled, “Understanding Occupational Therapy Practitioners’ Perspectives on Mentorship”.

The Occupational Therapy Department of Loma Linda University is conducting a graduate student research study regarding the perspectives of mentorship among currently practicing occupational therapists. This study aims to increase knowledge of mentorship in the field of occupational therapy and the process of developing professional insight throughout a clinical career.

Your contribution to the research in this study is highly regarded and the research team anticipates your participation.

See attached flyer for more information.

APPROVED
