

VOLUNTEER WITH HELPING KIDS WITH HEMIPLEGIA

CAMP

Helping Kids with Hemiplegia Camp is taking place from June 18th - 23rd in Chapel Hill. Therapist volunteers are an integral piece of supporting constraint induced movement therapy and bimanual intensive therapy for children with hemiplegia.

JUNE 18-23

Benefits of Volunteering at Camp!

- Training in CIMT and BIT techniques
- Opportunity to practice techniques and receive feedback
- Work with and support students
- Interdisciplinary collaboration
- Ability to bring back knowledge and techniques to your own practice
- Network with other pediatric therapists
- Maintenance hours toward license renewal
- Option to attend CEU Handling Course led by Holly Holland
- Free t-shirt!

Helping Kids with Hemiplegia Camp

Camp is a therapy based day camp that uses constraint induced movement therapy (CIMT) and bimanual intensive therapy (BIT) for children with hemiplegic cerebral palsy. Children aged 4-10 are able to attend.

Volunteer Staff

Camp is supported by a variety of volunteers to include licensed therapists, OT/PT students, and Pre-OT/PT students.

Student volunteers are paired with a camper and trained in movement facilitation and targeted interventions for each child.

Our therapist volunteers are essential in supporting students and campers to optimize interventions while at camp.

Camp Days

Mornings are started with hands on training related to movement facilitation and intervention ideas for all volunteer staff.

Throughout the day campers rotate between stations to include art, games, fine motor, and activities of daily living.

Each day ends with a group song and send off!

Some days have a theme and all volunteers are encouraged to participate!
