

CALLING ALL ACUTE CARE OT PRACTITIONERS

IN TRAUMA I HOSPITALS (ADULT ONLY)

NATIONAL SURVEY:

We are conducting a national survey on OT practitioner perceptions of functional cognition assessment and standardized cognitive tool use in acute care.

RESEARCH TITLE:

Occupational Therapy Practitioners' Perceptions on Addressing Functional Cognition in Acute Care: A National Descriptive Survey

PURPOSE:

The purpose of the study is to identify and understand standardized cognitive tool, functional assessment, & activity use among OT practitioners for discharge planning at U.S. trauma 1 hospitals.

INCLUSION CRITERIA:

- Certified OT or OTA
- Full or part-time employment at a level 1 trauma hospital in the U.S.(serving adult patients)

WHAT YOU WILL DO:

Complete a one-time survey regarding questions on standardized cognitive tools, assessments, & activities.

IF YOU ARE INTERESTED:

Please understand your participation is voluntary and your decision about whether to take part in the study will not change or influence your status of employment at your place of employment.

If you have any questions about this study, please feel free to call a member of our study staff at (507) 255-5504 or email us at Trenary.Tamra@mayo.edu or Oldenburg.Hannah@mayo.edu.

If you have any concerns, complaints, or general questions about research or your rights as a participant, please contact the Mayo Institutional Review Board (IRB) to speak to someone independent of the research team at (507) 266-4000 or toll-free at (866) 273-4681 (IRB #23-001272).
